Interview Project

Your assignment is to do an interview with someone who you think is inspiring. I want you to think of someone who has taught you so much, who you think is a beautiful person. I want you to think of every positive word this person makes you think of. Use a dictionary and a thesaurus. Your job is to film this. I want you to get their immediate reaction. If they want to know what it's about, you can tell them, "I can only tell you on film, if you don't want to continue that's fine I can work with someone else, no problem 😊." This social experiment is to make someone's day. Catch them in surprise and make them feel VERY SPECIAL. You are a student on a mission, you have to take this seriously. You might want to practice several times by yourself before you do the interview so you can be serious and professional. Please prepare your notes ahead of time, come up with at least three MEANINGFUL things to say to them. These comments have to be 'okayed' by me before you begin filming. Remember our lessons, Words Are Powerful let's use them to fill some buckets and empower people.
