Dear Grade 7 Parents,

Our school nurse will be visiting the grade 7 classes three times during the school year. She will be presenting sessions on hygiene and changes during puberty. The information presented at these sessions will be integrated under the Grade 7 Catholic Health Education Curriculum Guidelines.

At each session, one group will be with the nurse and a grade 7 teacher. The other group will be supervised by the other grade 7 teacher and working on related activities or an assignment. Both classes will receive a presentation that discuss the topics related to the changes in boys and in girls,

The information presented at the session on pregnancy and fetal development will also be integrated under the Grade 7 Catholic Health Education Curriculum Guidelines. Certain topics such as abortion, birth control, and STDs will be presented by the grade 7 teachers to ensure Catholic teachings.

At the end of the sessions, the students may receive additional Health Education material. This material may contain information not covered in sessions. You may choose to discuss this material with your child at home.

Please complete and submit the form below no later than **Monday, September 25th, 2017**. Students who do not participate will be given quiet study/work time.

Thank you,

Mr. Krol & Ms. Molina

Name of student: _____ **Class:** _____

_____ **My child is permitted to participate in the 3 sessions with our school nurse during the school year 2016-2017**

_____ **My child is not permitted to attend our sessions with our school nurse during the school year 2016-2017**
